IUCN
The World Conservation Union

TABLE OF CONTENTS

Edited and compiled by the IUCN Membership Unit, the 1998 edition of the Membership Directory contains the most current and complete list of members as of November 1998.

The first edition in November 1996 was also revised and updated in 1997.

MEMBERSHIP DIRECTORY

AFRICA - NORTH AFRICA AND THE MEDITERRANEAN 39

ASIA - SOUTH ASIA AND THE PACIFIC 51

EUROPE - WESTERN EUROPE 63

Members are listed alphabetically by country and by name of the organization.

A list of abbreviations for the names of the organizations is provided in the back of the directory.

ABBREVIATIONS FOR MEMBERSHIP CATEGORIES

DA	Government Agency
GO	Non-Governmental Organization
IN	International Non-Governmental Organization (INGO)
AF	Academic

IUCN - THE WORLD CONSERVATION UNION

1998

Edited and compiled by the IUCN Membership Unit, this 1998 edition of the Membership Directory contains the up-dated names and addresses of IUCN's members as of November 1st 1998.

The next edition, in November 1999, will once again include information on the main interests and activities of each member.

NOTE

Members are listed alphabetically by country and by name of organization.

Where a member organization is not given in one of the main IUCN languages, that is English, French or Spanish, a translation into English has been provided.

ABBREVIATIONS FOR MEMBERSHIP CATEGORIES

ST	State Member
GA	Government Agency
NG	National Non-governmental Organization
IN	International Non-governmental Organization
AF	Affiliate

IUCN – The World Conservation Union

Founded in 1948, The World Conservation Union brings together States, government agencies and a diverse range of non-governmental organizations in a unique world partnership: some 900 members in all, spread across 137 countries.

As a Union, IUCN seeks to influence, encourage and assist societies throughout the world to conserve the integrity and diversity of nature and to ensure that any use of natural resources is equitable and ecologically sustainable. A central secretariat coordinates the IUCN Programme and serves the Union membership, representing their views on the world stage and providing them with the strategies, services, scientific knowledge and technical support they need to achieve their goals. Through its six Commissions, IUCN draws together some 9,000 expert volunteers in project teams and action groups, focusing in particular on species and biodiversity conservation and the management of habitats and natural resources. The Union has helped many countries to prepare National Conservation Strategies, and demonstrates the application of its knowledge through the field projects it supervises. Operations are increasingly decentralized and are carried forward by an expanding network of regional and country offices, located principally in developing countries. The World Conservation Union builds on the strengths of its members, networks and partners to enhance their capacity and to support global alliances to safeguard natural resources at local, regional and global levels.

UICN – Unión Mundial para la Naturaleza

La Unión Mundial para la Naturaleza, fundada en 1948, agrupa a Estados soberanos, agencias gubernamentales y una diversa gama de organizaciones no gubernamentales, en una alianza única: con casi 900 miembros diseminados en 137 países.

Como Unión, la UICN busca influenciar, alentar y ayudar a los pueblos de todo el mundo a conservar la integridad y la diversidad de la naturaleza, y a asegurar que todo uso de los recursos naturales sea equitativo y ecológicamente sustentable. Un secretariado central coordina el Programa de la UICN y ofrece servicios a sus miembros, cuyos puntos de vista representa en el escenario mundial y a quienes proporciona las estrategias, los servicios, los conocimientos científicos y el apoyo técnico necesarios para que puedan alcanzar sus objetivos. A través de sus seis Comisiones, la UICN reúne con casi 9,000 expertos voluntarios, que integran grupos de trabajo y equipos técnicos centrados especialmente en la conservación de las especies y de la biodiversidad, y en el manejo de hábitats y recursos naturales. La Unión ha ayudado a muchos países a preparar Estrategias Nacionales de Conservación, y pone en práctica sus conocimientos a través de los proyectos de campo que supervisa. Sus operaciones se descentralizan de manera creciente, y las lleva a cabo una red de oficinas regionales y nacionales en continua expansión, principalmente en los países en vías de desarrollo.

La Unión Mundial para la Naturaleza fortalece el trabajo de sus miembros, redes y asociados, con el propósito de realzar sus capacidades y apoyar el establecimiento de alianzas globales para salvaguardar los recursos naturales a nivel local, regional y global.

UICN – Union mondiale pour la nature

Fondée en 1948, l'Union mondiale pour la nature rassemble des Etats, des organismes publics et un large éventail d'organisations non gouvernementales au sein d'une alliance mondiale unique: quelque 900 membres dans 137 pays.

L'UICN, en tant qu'Union, a pour mission d'influer sur les sociétés du monde entier, de les encourager et de les aider pour qu'elles conservent l'intégrité et la diversité de la nature et veillent à ce que toute utilisation des ressources naturelles soit équitable et écologiquement durable. Un secrétariat central coordonne le Programme de l'UICN. Il est au service des membres de l'Union, à qui il sert de porte-parole sur la scène internationale et fournit les stratégies, les services, les connaissances scientifiques et l'appui technique dont ils ont besoin pour atteindre leurs buts. Par le biais de ses six commissions, l'UICN rassemble quelque 9,000 experts bénévoles rattachés à des groupes d'action et des équipes de projets dont les objectifs principaux sont la conservation des espèces et de la diversité biologique, ainsi que la gestion des habitats et des ressources naturelles. L'Union, qui a aidé de nombreux pays à élaborer leur Stratégie nationale de conservation, démontre la pertinence de son savoir par le truchement des projets qu'elle supervise sur le terrain. De plus en plus décentralisées, ses activités sont menées par un réseau de bureaux régionaux et nationaux en pleine expansion, installés principalement dans les pays en développement.

Afin de sauvegarder les ressources naturelles aux plans local, régional et mondial, l'Union mondiale pour la nature s'appuie sur ses membres, réseaux et partenaires, en renforçant leurs capacités et en soutenant les alliances mondiales.
