

6. The Seventh General Assembly

- strongly supports the resolution proposed by the International Council for Bird Preservation (Tokyo, 1960) that the proposed Antarctic International Treaty include appropriate measures designed to maintain the fauna, and urges the setting aside of inviolable areas for the conservation of this unique polar fauna and its natural environment;
- in addition, supports the action recommended by the Antarctic Symposium of the International Council of Scientific Unions (Buenos Aires, 1954) that the Special Committee for Antarctic Research be invited to prepare standard regulations which will provide for the protection of the Antarctic fauna and flora and their habitat, and that member nations be encouraged to ensure their enforcement.
