

## **20. Anchoveta Stocks in Peru**

*Realizing* the great importance of the anchoveta stocks for the Peruvian economy, both as a direct fishery and as the food supply of the guano birds and

*having learned* with pleasure of the measures already taken by the Peruvian Government to conserve these stocks

**the 9th General Assembly of IUCN** meeting in Lucerne in June 1966

**urges** that Government to implement the recommendations of FAO (FAO Fisheries Technical Paper No 55) and in particular the restriction of any further increase in the capacity of the fishing fleet.
